Key words. relativistic processes – gamma-ray burst: individual: GRB 170817A – stars: neutron – gravitational waves – errata, addenda

Equation (1) in the original paper contained a typographical error and must be replaced by the following (which we slightly reformulated for clarity):

$$\eta_{\text{BZ,M05}} = \begin{cases} 10^{-4} e^{(a_{\text{BH}}-0.25)/0.06} & a_{\text{BH}} \leq 0.25 \\ 10^{-4} & 0.25 < a_{\text{BH}} \leq 0.505 \\ 0.068 \Omega_{\text{H}}^5 & a_{\text{BH}} > 0.505 \end{cases} . \quad (1)$$

The plot in Fig. 4 of the original paper is nevertheless correct: it corresponds to the above formula and not to the one reported in the original paper, which had a wrong coefficient in the first line.
