

Dear Giovanni Franco Crosta,

The 10th International Conference on System Reliability and Safety (ICSRS 2026) will take place from November 23-25, 2026, in Rome, Italy, and is technically co-sponsored by co-sponsored by Politecnico di Milano, Italy and IEEE Reliability Society (Italy Chapter).

The conference provides a platform for researchers, practitioners, and industry experts to exchange ideas and present their latest research findings on various topics, including fault diagnosis, fault-tolerant control, risk analysis, safety management, system reliability assessment, and maintenance optimization. The conference will facilitate the exchange of ideas and foster the development of new techniques and methodologies to improve system reliability and safety, ultimately contributing to the creation of a safer and more reliable world.

Paper ID: R7096

Paper Title: Soil-structure interaction affected by artificial water recharge: A data-driven scheme
